Arturo Abreu

Web Developer

Location: London   Email: r2work@pm.me   GitHub: r2abreu   LinkedIn: artuabreu

PROFESSIONAL EXPERIENCE

Front End Developer

TUI Musement March 2022 - Present · Remote.

`TECHNOLOGY`

- Designed and managed enterprise-grade frontend web applications such as tuiexperiences.com and musement.com using a microfrontends architecture based on shared Vue components
- Overseeing the JavaScript community as **Evangelist**, maintaining various in-house Node.js packages shared across multiple repositories
- Spearheaded the development and enhancement of voucher and email templating features for customer communications

Front End Developer

Azertium IT March 2021 - February 2022 · Remote.

`TECHNOLOGY`

- Contributed to feature development and ongoing maintenance of TOUS e-commerce platform (tous.com)
- Designed UI components, including creating comprehensive unit and end-to-end testing suites
- Additionally, offered support for diverse non-front-end tasks, encompassing some DevOps responsibilities

Front End Developer

Bit Computer Training September 2020 - February 2021 · Barcelona, Spain.

`TECHNOLOGY`

- Completed 490 hours bootcamp with a strong emphasis on project analysis, design and implementation
- Thrived in a collaborative, project-centric setting
- Used systematic problem-solving to align with client and project requirements

McDonnell Douglas DC9 & MD82 First Officer

Aeropostal April, 2013 - December, 2017 - Caracas, Venezuela

`AERONAUTICAL`

- Worked alongside the flight crew to perform frequent flights with passengers and cargo
- Used crew coordination techniques to monitor aircraft systems and ensure its proper behaviour
- Assessed flight capabilities under single engine operations

TECHNICAL SKILLS

Analysis, architecture and design of interactive web apps using modern features of **JavaScript/TypeScript** and **WebAPIs**

Crafting of frontend applications using modern JS frameworks such as **Vue.js/Nuxt.js**

Experience with Debian-based linux systems, including shell scripting and basic understanding of automation tools like **Ansible**

Understanding of **CI/CD** practices, using tools like **Gitlab CI/CD**, **Github Actions** and **AWS CodePipeline**

LANGUAGES

- **Spanish:** Native
- **English:** Fluent

SOFT SKILLS

Some of the skills I've developed in other industries, which I consider to be transferable to the role for which I'm applying:

- Effective verbal, written and visual communicator
- Reliable colleague and team player
- Reflective and creative thinker
- Solutions focused

EDUCATION

Commercial Pilot

INAC 2010 - 2013 - Puerto La Cruz, Venezuela

GCSE Equivalent

U.E CMG 2005 - 2010 - Margarita, Venezuela
